## 2010 Vocational Service Update

Your Vocational Service Committee:  
Patricia Bintliff, Tim Brown, Phil Reynolds

The Success Workshops continued on Saturday April 17, 2010. This workshop focused on the self presentation skills otherwise known as the "Elevator Speech". The term comes from the amount of time it takes an elevator to get from one floor to another. In this workshop we helped each of our clients script a 20-second introduction of themselves that highlights who they are, what job experience they have had, their strengths, and where they see themselves in the workplace five years from now. A special thanks to Caroline Babott, Patricia Bintliff, and Craig Kennedy for their outstanding contributions to our third workshop as coaches.
